SKILLS

Languages: C,Java, JavaScript, HTML,CSS
Frontend:: HTML,CSS,JavaScript,React.js, Tailwind CSS
Backand:Node.js,Express.js,MySQL,MongoDB
Tools: Git/GitHub,VS Code

PROJECTS

Amazon Clone | *React.js,CSS, HTML,JavaScript,API,Node.js,Express.js* Nov,2023-Jan,2024
- The Amazon clone web development project aims to create a functional and user-friendly e-commerce platform inspired by the popular online market place Amazon.
- The clone will feature a comprehensive search and filter functionally, enabling users to quickly find products based on their preference, price range, and other specifications.
- The project incorporates user account management features, including registration, login and personalize profiles to enhance the overall shopping experience.

Budget APP | *HTML,CSS, JavScript,Node.js, Express.js,MongoDB, VS Code* Oct,2023- Nov, 2023
- Developed a budgeting application allowing users to manage their finances efficiently.
- Enabled users to create budgets with specific names and accounts, and to add, view, and delete expenses.
- Implemented features for adding expenses with descriptions, amounts, and associated budget names.
- Provided a comprehensive view of all expenses and the total budget amount in a consolidated interface.

Web-Based Weather App | *HTML,CSS,JavaScript,OpenWeather API* June,2024
- Developed a web-based weather application using HTML, CSS, JavaScript, and the OpenWeather API.
- Implemented features to fetch and display real-time weather data for any location.
- Integrated dynamic weather updates, including temperature, humidity, and weather conditions.

EXPERIENCE

Techplement | *Frontend Devloper* 01/06/2024 – 01/07/2024
Recipe Finder Web Application
Developed a recipe finder web application using HTML, CSS, and JavaScript. Created an intuitive user interface for users to search and discover various recipes. Implemented features for filtering recipes by ingredients, cuisine, and dietary preferences. Ensured responsive design for optimal usability across different devices and screen sizes.

HOBBIES

Reading Tech Books and Articles , Traveling, Cooking and Baking , Exercising and Outdoor Activities
